A public auction of timbers lying at the Quilon Cantonment, Tuot, Punalur, Edamon, Thenmalai and Shencottah depots and of teak saplings lying stacked at the Ariankavoo Teak Plantations, will be held on the dates noted against each commencing at 1 P.M.

2. Intending purchasers must deposit a sum of R. Re. (6) five as earnest money before the auction commences or they will not be allowed to bid. The earnest money will be returned to them if no purchase is made or will be deducted from the one-third deposit referred to in paragraph 4 below; but if the purchaser does not pay the one-third amount bid on the spot the earnest money deposited by him shall be credited to Government.

3. The sale will in each case be knocked down to the highest bidder subject to the condition that, in all cases where the price bid for sound timber is below 75 per cent. of the tariff rates, it shall be subject to the confirmation of the Conservator.

4. The purchaser must pay one-third of the amount bid on the spot without fail and the balance must be paid and the timber removed within thirty days from the date of issue of notice confirming the sale.

5. If all the money is not paid within the time prescribed, the timber will be resold, in which case the one-third purchase money previously deposited shall be forfeited to Government as also all claim for the timber and profit of any derived from its resale. This procedure shall be followed also in the case of timber fully paid for but not removed within the prescribed time, save that in such cases the original purchaser shall be entitled only to the sale-proceeds of the resale after deduction therefrom of the amount of ground rent, and of such other charges or losses as Government may have incurred in conducting such resale.

6. No timber shall be permitted to be removed unless it has been paid for in full and until a rahadary or pass has been granted by the Conservator of Forests or by an officer authorized to grant such passes.

7. The attention of the intending bidders is also drawn to the Revised rules, dated 3rd May 1909, published in the Government Gazette No. 19, dated 29th Medam 1084, regulating the measurement of timber and its storage at and removal from the land and water depots and watch stations and the recovery of ground rent, etc.

8. For further particulars apply to the undersigned

9. The approximate quantity of timber available for auction sale under each species in each depot and their uses, etc., are given in the following list.

The Standard Barometer and Thermometers are read at 8 A.M., 10 A.M., 4 P.M. and 8 P.M., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The cistern of the Barometer is twenty-two feet above the level of the sea, and the receiver of the Rain Gauge is two feet from the ground. The wind, rain, and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 22·70 inches, the average due for the same period being 5·78 inches.
